QUOTED. Oct. 10, 2018. Seema Verma.

by

The US Centers for Medicare and Medicaid Services is enacting reforms to open up and potentially speed up the coverage decision processes for new devices and therapies used by local Medicare contractors. See what CMS Administrator Seema Verma said about it here.

"The Trump administration is committed to strengthening Medicare and bringing the latest medical technologies to beneficiaries, and we cannot allow outdated processes and administrative barriers to stand in the way of this." –Seema Verma, administrator, US Centers for Medicare and Medicaid Services
