QUOTED. March 4, 2019. Kate Goodrich.

by

US agencies CMS, FDA and CDC have formed a new task force to help accelerate diagnostics for public health emergencies. CMS official Kate Goodrich talks about one goal of the effort here.

“Timely implementation of EUA diagnostic assays in the US health-care system is dependent upon laboratories understanding the instructions for use and applying them to patient samples received.” – Kate Goodrich, director, Center for Clinical Standards and Quality, CMS
