QUOTED. 6 August 2019. Katherine Owen.

by

In the second quarter of 2019, Stryker reported a 6% growth in sales of orthopedic devices, led by the Mako robotic surgery platform. See what Katherine Owen, Stryker's VP of strategy and investor relations, said about it [here](#).

“We think we're going to continue to see some strong gains in hips on Mako, as well as, obviously, with knees.” – Katherine Owen, VP of strategy and investor relations, Stryker
