QUOTED. 18 September 2019. Martin Frost.

by

UK robotics firm CMR Surgical landed \$240m in a Series C financing round, which will propel its Versius robotic surgery system onto the market. See what CMR Surgical's CEO, Martin Frost, said about it here.

"Surgical robotics is currently occupying less than 10% of the addressable market, so we very much see CMR Surgical as one of the players in a very large market that needs addressing." – Martin Frost, CEO, CMR Surgical
