## QUOTED. 27 April 2020. David Maman.

by

Israel-based start-up Binah.ai is gearing up for a post-pandemic world where screening technologies will play an increasingly important role. See what David Maman, CEO of Binah.ai, said about it here.

“This is a key traumatic point in our history where telemedicine undoubtedly will suppress classical and traditional medical services within the next 18 to 24 months.” – David Maman, CEO, Binah.ai
