QUOTED. 5 August 2020. Eric Fanning.

by

AdvaMed's VentConnect platform is expanding to support production of devices needed to treat COVID-19. Here's what Eric Fanning, CEO of participating group the Aerospace Industries Association, said about the move.

“Unprecedented challenges offer unique opportunities to think outside the box, to harness ingenuity and innovation for the greater good, and this partnership is a prime example.” – Eric Fanning, president and CEO, Aerospace Industries Association
