QUOTED. 21 December 2020. Adam Elsesser.

by

Penumbra's JET 7 catheters with Xtra Flex Technology are being recalled after safety measures including labeling changes failed to limit adverse events, Penumbra CEO Adam Elsesser said.

"We issued the July 27 notification to physicians and took other steps to ensure the safe use of the product, but these measures were not able to fully address the risks." – Adam Elsesser, CEO, Penumbra
