QUOTED. 22 March 2021. Chris Mansi.

by

Viz.ai, which developed an AI-driven platform to help doctors diagnose stroke and coordinate care, raised \$71m in series C round. See what Chris Mansi, CEO of Viz.ai, said about the company's plans here.

“The investment will allow us to expedite our effort to bring the power of artificial intelligence and advanced mobile technology to prevent care breakdowns, improve patient outcomes and experience, and improve economics across the entire health system both in the United States and Europe.” – Chris Mansi, CEO, Viz.ai
