QUOTED. 3 May 2021. Ranndy Kellogg

by

Omron Healthcare is rolling out its VitalSight remote-care platform for monitoring patients at high risk for hypertension, which has gained traction during the pandemic. See what Omron's CEO Ranndy Kellogg said about it [here](#).

“We’ve got probably 50 different institutions [big and smaller doctor practices] that we’re trying to bring up to speed right now ... and that’s keeping us busy.” – Ranndy Kellogg, CEO, Omron Healthcare
