QUOTED. 23 June 2021. Dave Marver.

by

Onward has been granted three FDA breakthrough device designations for ARC Therapy, a spinal cord stimulation therapy that aims to restore movement and improve quality of life of people with spinal cord injuries.

“Working in concert with our research partners, we’re looking at a host of other indications that leverage our technologies, either the implantable or the external, that we are hopeful will also help people with spinal cord injury.” – Dave Marver, CEO, Onward
