QUOTED. Gerald Harmon.

by

Proposals from the US Centers for Medicare & Medicaid Services would help make telehealth a permanent fixture across the health care landscape, particularly for treating mental health. See what Gerald Harmon, president of the American Medical Association, said about it here.

“Telehealth can slice overall health care costs by helping physician practices and health care systems better manage diabetes, heart disease and other chronic illnesses while increasing the overall quality of care and patient satisfaction.” – Gerald Harmon, president, American Medical Association
