Getting Personal With Avail Medsystems' Daniel Hawkins Who Has Entrepreneurship In His Blood And Recipes For Businesses And Kitchens

by Marion Webb

Medtech Insight's new series Getting Personal features conversations with new and veteran senior executives about their journeys to corporate leadership, their motivations, passions and the peaks and valleys of running a medtech company. Daniel Hawkins, founder and CEO of Avail Medsystems discussed how his company virtually connects health care professionals into the operating suite and allows for real-time collaboration.
